

Project Notification in McMurray, PA

As part of our commitment to provide safe and reliable natural gas service to our customers, Columbia Gas of Pennsylvania has been making a significant investment to replace natural gas pipelines in your neighborhood.

Work is expected to begin the week of January 9, 2023 and take place Monday through Friday from 7:00 a.m. to 5:00 p.m., with Saturday work possible. Our work mainly affects customers along portions of Bates Way, Bellwalt Drive, Cheri Drive, Circle Drive, Golfview Drive, Glen Drive, Greenfield Drive, Highway View Road, Kimber Drive, Linksvie Drive, Rutledge Drive and Sylvania Drive. Motorists can expect lane restrictions during working hours only.

During this time, you may see our contractors or employees doing work and inspections on your street, public rights-of -ways and customers' properties and meters. This project may include replacing your service line and moving any indoor gas meters outside at no additional cost to you. However, this stage of the project will not occur until after the upgraded pipeline has been installed.

Please use extreme caution when traveling through our work zone. Please slow down and obey flaggers and all posted signs including detours and parking restrictions. We apologize for any inconvenience and will make every effort to limit traffic restrictions.

We appreciate your patience and cooperation on this important project to maintain safe and reliable natural gas service to homes and businesses in the community. Please contact Carla Parkes at 412-295-7245 or cparkes@nisource.com for any questions or concerns.
