Dear Township Resident:

Columbia Gas Transmission, LLC has recently made the Township aware of an upcoming project on Turkeyfoot Road that involves repairs to one of its existing transmission lines. As a result of the work, Columbia will be closing Turkeyfoot Road to through traffic during working hours, but, opening the road back up to full access at night. The road will be barricaded at the work zone (near 130 Turkeyfoot – see enclosed Map) and a detour established for the duration of the project. Local residents will have access to their homes at all times, but, may experience minor delays if equipment or materials are being moved along the roadway during working hours.

Currently, Columbia Gas anticipates beginning the project sometime around late-February or early-March and that it will take approximately three (3) weeks to complete. However, this is subject to change. Columbia will be erecting advanced notification signs along the roadway approximately one (1) to two (2) weeks prior to the actual start.

Thank you for your patience during this important project.

Sincerely,
PETERS TOWNSHIP

Mark A. Zemaitis, P.E.
Director of Engineering
